Anaphylaxis Initial Emergency Treatment by Nurses (Adult & Pediatric) (LearningHub course #19708)	✓			✓ *	✓	✓	✓	✓	✓ #			✓	✓	✓	✓	✓	✓	✓

* Applicable to Podiatrists only

Applicable to Midwifery students only

¹ Regulated health professionals with authorization to perform the activities independently AND immunize without a PHO Order.

² Although additional education is not required for Nurses administering immunizations with a Physician/Nurse Practitioner order, completion of the recommended education is strongly encouraged.

³ Those who have completed the [BCCDC Immunization Competency Course](#) are recommended to complete the BCCDC COVID-19 Immunization Webinars and/or BCCDC Seasonal Influenza Update, and are not required to complete the BCCDC COVID-19 Immunization Competency Course for Nurses or the BCCDC Influenza Immunization Competency Course.

⁴ Pharmacists and Naturopathic Physicians who are not vaccine certified by the College of Pharmacists of BC / College of Naturopathic Physicians of BC are required to take the [BCCDC Immunization Competency Course](#) and be certified before providing immunizations.

⁵ All students must have completed the requisite foundational knowledge obtained in their educational program related to intramuscular injections, immunization basics and medication principles to participate in the mass vaccination clinics.

Additional Notes

- It is required that all those involved in immunization activities have their competencies reviewed using the [BCCDC COVID-19 Immunization Skills Checklist](#) and/or [BCCDC Influenza Immunization Skills Checklist](#) by the immunization employer, with the exception of Physicians, NPs, and those who have previously completed the BCCDC Immunization Competency Course and BCCDC Immunization Skills Checklist.
- All professionals with authorization to perform a COVID-19 immunization activity under the PHO Order on a child 12-17 years of age must complete the [BCCDC COVID-19 Immunization for Older Children and Adolescents](#) course (LearningHub course #26082)
- All professionals with authorization to perform a COVID-19 immunization activity under the PHO Order on a child 5-11 years of age must complete the [BCCDC COVID-19 Immunization for Children 5-11 Years of Age](#) course (LearningHub course #27185)
- All professionals handling dry ice as part of their immunization role must take the [Dry Ice Handling Safety Training Course](#) (LearningHub course #24530).
