Welcome to Tyze

Helping you build a community to support someone you care about

When the time comes to care for a loved one in need, it can be easy to feel alone... and hard to know where to find support.

Now there's Tyze: a new online service that makes it easy to reach out to friends, family, neighbours and caregivers.

It helps you to build a network of care - make plans and share stories - and make a real-world difference in the quality of life of someone you love.

Tyze helps you...

...schedule everything from medical appointments to birthday parties

...plan tasks and report on progress

...connect with new people who can build and strengthen your network

...tell the story of the person at the centre of the network: their triumphs and challenges, and how they touch the lives of the people around them

Tyze is about the person at the centre of the network.

Tyze is much more than a way to make appointments and track tasks. It's a place to celebrate the contributions and achievements of the person at the centre of the network - and a way they can stay connected to friends and loved ones.

And for the network's members, it's a chance to feel connected and effective in a whole new way.

Learn more about Tyze with this sneak peek.
