PYRAZINAMIDE

Pyrazinamide is an antibiotic used only to treat tuberculosis (TB).

When should I take this?

- Take this medicine at the same time every day. This will help you remember to take the medicine.

How should I take this?

- It is very important that you take this medicine regularly.
- Take as directed by your doctor.

What should I do if I miss a dose?

- If you miss a dose, take that dose as soon as you remember. But if it is almost time for the next day's dose, skip the missed dose.
- **Do not take a double dose.**

Is there anything I should avoid when taking this?

- Alcohol
- Avoid excessive **exposure to sunlight** or artificial UV light (e.g. sunlamps or tanning beds) while taking this medication. Use sunscreen and wear protective clothing.

Tell your doctor and pharmacist if you are taking **any other medicines**, including any over-the-counter (non-prescription) products.

What are some possible side effects?

- pain or swelling of the joints

Caution: Call your doctor or nurse immediately if you experience any of the following symptoms:

- unusual tiredness or weakness
- fever
- loss of appetite
- nausea (urge to vomit)
- stomach upset or diarrhea
- dark urine
- yellowing of skin or eyes
- itching or skin rash
